– TRAFFIC ADVISORY –

LOS ANGELES BUREAU OF STREET SERVICES RESURFACING PROJECT TO IMPACT TRAFFIC ON SEPULVEDA BOULEVARD BETWEEN 76th/77th STREET AND 84th PLACE

(Los Angeles, California – July 24, 2017) Los Angeles World Airports (LAWA) shared that, starting today, the City of Los Angeles Bureau of Street Services (BSS) will be working on Sepulveda Boulevard, from 76th / 77th Street to 84th Place, and continuing throughout the week. The public is advised to use Kentwood Avenue, South La Tijera Boulevard, or other alternative routes.

Google map image provided by Bureau of Street Services. Red line indicates where Sepulveda Blvd. will be reduced to one lane each way; green lines indicated recommended alternative routes.

“The last thing we want is for travelers to be late for their flight, or under undue stress due to known traffic impacts,” said LAWA Deputy Executive Director of External Affairs Trevor Daley. “We hope that all visitors to LAX will give themselves ample time to get to the airport and on to their gates. Advanced planning is doubly important when construction or road work is scheduled in and around LAX, which is why we recommend getting to the airport two hours before the listed boarding time for a domestic flight, and three hours before an international flight.”

Hours for the resurfacing project are:

7 a.m.-3 p.m. Monday-Friday, July 24-28; and

6 a.m.-4 p.m. on Saturday, July 29.

BSS will cold-plane and resurface the street, causing traffic to be restricted to one lane in each direction, Monday to Friday, during scheduled working hours. Travelers are advised to check traffic conditions before heading to the airport. Airport traffic and construction updates can be found on LAWA social media at [@FlyLAXairport](https://twitter.com/FlyLAXairport) on Twitter, or at [www.http://www.lawa.org](http://www.lawa.org).

About Los Angeles World Airports (LAWA)

Los Angeles World Airports (LAWA) is the City of Los Angeles department that owns and operates Los Angeles International (LAX) and Van Nuys (VNY) general aviation airports, as well as aviation-related property in Palmdale. Both play an integral role in helping to meet the Southern California regional demand for passenger, cargo and general aviation service. Both airports make a distinct contribution to the strength of the system as it provides a high level of safety, security and service for its customers, communities and stakeholders.

As a covered entity under Title II of the Americans with Disabilities Act, the City of Los Angeles does not discriminate on the basis of disability and, upon request, will provide reasonable accommodation to ensure equal access to its programs, services, and activities. Alternative formats in large print, braille, audio, and other forms (if possible) will be provided upon request.
